Curriculum for Liberal Education (CLE)

Consult the CLE Alphabetical Listing at: <http://www.cle.prov.vt.edu/guides/alpha.html>, CLE courses need to be completed prior to graduation

CLE Area 1: Writing and Discourse (6 hrs)	ENGL 1105	(3)	ENGL 1106	(3)
CLE Area 2: Ideas, Cultural Traditions, Values (6 hrs)		(3)		(3)
CLE Area 3: Society & Human Behavior (6 hrs)		(3)		(3)
CLE Area 4: Scientific Reasoning and Discovery (8 hrs)	PHYS 2305	(4)	PHYS 2306	(4)
CLE Area 5: Quantitative and Symbolic Reasoning (8 hrs)	MATH 1225	(4)	MATH 1226	(4)
CLE Area 6: Creativity & Aesthetic Experience (1 hr)				(1)
CLE Area 7: Global Issues (3 hrs)				(3)

If a CLE course is double-counted to satisfy two different CLE areas, a free elective(s) must be taken to maintain a minimum of 132 credits.

Electives: BSE majors must take 12 hours of BSE electives, 6 hours of chemistry electives, 6 hours of engineering topics electives, and 8 hours of technical electives. Students choose from the courses listed under each respective requirement, noting that some courses are not available to all students because some courses have prerequisites and some are restricted to majors in the offering department. Courses with substantial duplication of courses previously taken will not qualify for credit. Independent study (XXX 4974) and undergraduate research (XXX 4994) courses cannot be used as electives.

Change of Major Requirements: Please see <http://enge.vt.edu/undergraduate-changing-majors.html>

Foreign Language Requirements: Students must have had 2 years of a foreign language in high school or one year at the college level (6 credit hours) of the same language. College-level credits used to meet this requirement do not count towards the degree.

Satisfactory Progress Towards Degree: University Policy 91 outlines university-wide minimum criteria to determine if students are making satisfactory progress towards the completion of their degrees. The BSE Department fully supports this policy. Specific expectations for satisfactory progress for BSE majors are as follows:

- Each student must meet the minimum University-wide criteria as described in Policy 91 and summarized in the Undergraduate Catalog (under Academic Policies);
- Maintain overall and in-major GPAs of at least 2.0 (in-major GPA based on grades in required BSE courses and BSE electives);
- Be registered for at least one BSE-prefix course per semester, excluding BSE 2094, 2294, 2484, and 4994;
- Not take any BSE course required in the major more than twice, including attempts ending in course withdrawal; and,
- Having attempted 72 hours (including transfer, advanced placement, advanced standing, and credit by examination), passing MATH 2204 and ESM 2304.

Prerequisites: Pre-requisites for each course are listed after the course title.

- There are no hidden prerequisites in this program of study.
- Prerequisites may change from what is indicated. Be sure to consult the University Catalog or check with your advisor for the most current requirements.

Graduation Requirements: Students must pass all required courses and both the in-major and overall GPA must be at least 2.0 for graduation. A student must obtain a C- or better in all BSE courses, which all count towards the in-major GPA, including the required BSE courses (2004, 3134, 3144, 3154, 3504, 4125, 4126, and 4204), the 12 hours of required BSE electives, and any additional BSE electives, if taken. Only free electives and courses only offered on a Pass/Fail basis may be taken Pass/Fail. Courses on the College of Engineering list of non-degree credit may not be taken for credit towards graduation (list found at www.eng.vt.edu/forms).
